

Latest GPS Technology

Today, Agriculture demands improved productivity and efficiency. Cutting costs, saving time and ensuring the entire agricultural enterprise is more efficient and accountable, and is essential to compete in domestic and global markets.

Kevin Johnson Agricultural Contractor utilises this latest GPS system in his vehicles for pin point accuracy.

Kevin Johnson 40 years experience in the Farming Industry

After leaving School in 1971, Kevin became a student at a farm in Glinton, where he learnt his trade dealing with Arable, Pigs, Dairy and Grass.

In 1973 Kevin was offered a six week contract on a farm in Wittering, his work was of such a high standard that he ended up staying for eight years. Kevin's duties included drilling approximately two thousand acres a year, with the farms direct drilling contract business. The farm also had Pigs and Single Suckle Heard, as well as six hundred acres of Arable and Grass.

In 1981 **Kevin Johnson Contracting** was formed, consisting of a single tractor and direct drill, together with lots of enthusiasm and help from several people.

In 1993 as the business grew, Kevin introduced Lime and Fertilizer spreading and the cutting of grassed areas/verges, alongside Satellite Spreading, and Winter Maintenance which have been added to our ever growing portfolio.

The services are offered directly to farm, local authorities or sub contracted through merchants.

Whole or part farm contracts considered.

years experience in
the Farming Industry

KEVIN JOHNSON AGRICULTURAL CONTRACTOR

Silage

This is a complete service entailing mowing to rowing up, picking up with forage wagon, and taking to clamp and clamping.

Some of the advantages of a forage wagon is it has a longer chop length. Better for cows, more milk, higher butter fat has been achieved!

Drilling

Rape and all types of cereal drilled using KHUW Pneumatic Drill.

6 metre Air Drill (tram lines).

Lime Spreading

All grades of Lime spread with Bredal Spreaders (at 12 metres).

Soil testing can be arranged with experienced fieldman.

GPS Mapping/Spreading for pin point accuracy with minimum waste.

Grass and Verge Cutting

Grassed and verge areas mowed with side mounted "Votex" mowers.

"Mulog" side arm.

Fertiliser Spreading

Straight, Blends, Salts, Bagged - .5 ton to 1 ton. Fertiliser spread via Bredal or in the crop with KHUW mounted spreader.

Border spreading is included in service.

GPS Mapping/Spreading for pin point accuracy with minimum waste.

Winter Snow Clearance

Clear roads, car parks, walkway areas of snow and ice this winter. Spreader can handle all types of dry salt, and many other materials.

Latest GPS tracking technology.
